SMART COMMUNICATIONS
FOR SMALL, MEDIUM &
LARGE ENTERPRISES

TODAY'S COMMUNICATION CHALLENGES

With technology changing exponentially and workforces becoming more mobile, having or not having the right communication tools can make or break your team's ability to maintain high levels of customer service. Coupled with increasingly demanding customers with higher service level expectations, having the right communications system in place is imperative.

A SMART APPROACH AGILITY AND MORE FLEXIBILITY

The choice of communication solutions in the marketplace is vast – that is why it is important to choose a solution that offers you the flexibility to customize it to meet your workforce needs and provides your business with the agility it requires to adapt to ever-changing customer demands.

NEC's UNIVERGE® SV9500 communications solution offers you choices to implement a solution that best fits your business and industry needs – keeping your team and customers... connected.

- > Choice of full redundancy appliance server model, virtualized software model or Enterprise (SE) model
- > Expandable to 16,000 IP extensions within a single system and up to 192,000 IP extensions in a networked system – plenty of capacity for growth

- > Various deployment options – centralized (single/branch offices) & distributed, and private or hybrid cloud
- > Latest upgradeable communications technology – protect your investment
- > Both SIP and ISDN technology for a future-proof solution
- > Easily connects with service provider networks through NEC's UNIVERGE BX Series of session border control gateways

That's why NEC's SV9500 platform is one of the easiest to configure Unified Communications capable systems on the market. It easily integrates with existing IT technology as a fully interoperable digital or IP system. It also meets the demands of your multi-generational employees. Recognized as having the highest level of customer satisfaction among Unified Communications vendors, NEC also brings you an incredibly smart investment.

ENHANCE YOUR CUSTOMER EXPERIENCE

IT'S NOT ABOUT YOU. IT'S ABOUT YOUR CUSTOMERS

The quality of their experience has a direct relationship with your competitive edge and your profitability. The SV9500 is designed to cater to demanding customers who want access to your products and services 24/7/365.

ENHANCE YOUR EMPLOYEE EXPERIENCE

YOUR EMPLOYEES ARE YOUR MOST VALUABLE ASSET

Give them the right tools and you'll get a more engaged, productive workforce. Achieving this, especially for a multi-generational team, requires choice and flexibility when it comes to how they communicate and on which device.

DISCOVER YOUR SMART WORKSPACE

WORK IS A THING YOU DO, NOT A PLACE YOU GO

THE RISE OF THE THE REMOTE WORKER

Productivity, cost savings, greater flexibility for your workforce – just some of the reasons working remote has increased globally to 52% of employees around the world working from home at least once per week and 21% more than once per week*. With the SV9500's unified communications and collaboration solutions, your employees can work from any location and be reached anytime – just as if they were sitting at a desk in the corporate office.

STAY CONNECTED

ELEVATE THE EMPLOYEE EXPERIENCE

Staying connected is critical for remote workers. It helps them to be more productive, service customers better and makes them feel more like part of the team – enhancing their overall employee experience. With the SV9500's cost-effective voice, video and collaboration solutions, your remote workers will never be or feel out of touch.

- > Access to a complete suite of user-centric UC and collaboration applications from a single desktop client
- > Provides intuitive call control, instant messaging (IM), group chat and audio/video conferencing
- > Individualized contact rules – assign different call treatments for individuals and groups based on presence status
- > Enables real-time sharing and exchange of information between co-workers and customers
- > Improves teamwork among colleagues in geographically dispersed locations

SMART COLLABORATION

ENHANCE THE CUSTOMER EXPERIENCE

Encourage collaboration by providing your employees with a more convenient, immediate and secure way to work together with others. The SV9500's collaboration solutions provide the tools that enable your business to work with partners, suppliers and customers to shorten decision cycles, improve information sharing and increase the speed of decision-making.

- > Conduct informational meetings, presentations and training sessions – which can result in reduction in travel expenses
- > Multi-party video-conferencing enables sharing of Microsoft Office documents, PDFs, pictures and videos plus more
- > Virtual white-boarding allows participants to draw and make notes on existing documents
- > Encrypted and secure – unique meeting ID and PIN required for each participant
- > Record meetings for future reference

LIKE BEING IN THE OFFICE

EMPLOYEES ARE YOUR MOST VALUABLE ASSET

NEC's range of IP desktop telephones deliver a user-friendly VoIP calling experience with complete phone system functionality – ideal for remote or home-based workers.

- > Easy to use intuitive interfaces
- > Supports a wide-range of applications to help improve efficiency and productivity
- > Access to company directory
- > 3-way conferencing
- > Headset support including support for Ear Hook Switch (EHS)

WORKING FROM HOME/REMOTE INCREASES PRODUCTIVITY

**LOWERS COSTS AND CAN REDUCE
ABSENTEEISM BY OVER 60%**

ADVANCED ENGAGEMENT SOLUTIONS FOR EXCEPTIONAL SERVICE & EXPERIENCES

Customers today expect a frictionless experience when interacting with your business and assume they will be able to communicate on their own time in whatever method they choose. The SV9500's Contact Center and Attendant solutions offer your customers a rich omni-channel environment which helps make each interaction with your organization exceptional.

THE SMART CONTACT CENTER

CUSTOMER LOYALTY THROUGH ATTENTIVE SERVICE

The SV9500's Contact Center solutions provide all the tools necessary to make each interaction between your customers and your business quick and easy. Between improved response times, reduced call abandon rates, lower operating costs, and increased revenues, both you and your customers will see a return on your investment through superior customer service.

- > UC agent desktop application provides real-time status and availability of colleagues
- > Multiple communication channels - web-based chat, email and voice
- > Skills-based routing
- > Estimated time-to-answer and spoken queue depth announcements
- > Option for callers to request an immediate or scheduled callback
- > Custom informational announcements to callers in queue
- > Auto-attendant menus and selections to enable caller to reach the appropriate agent
- > Allows agents and operators to dynamically switch between various roles as needed
- > Scales easily for future growth

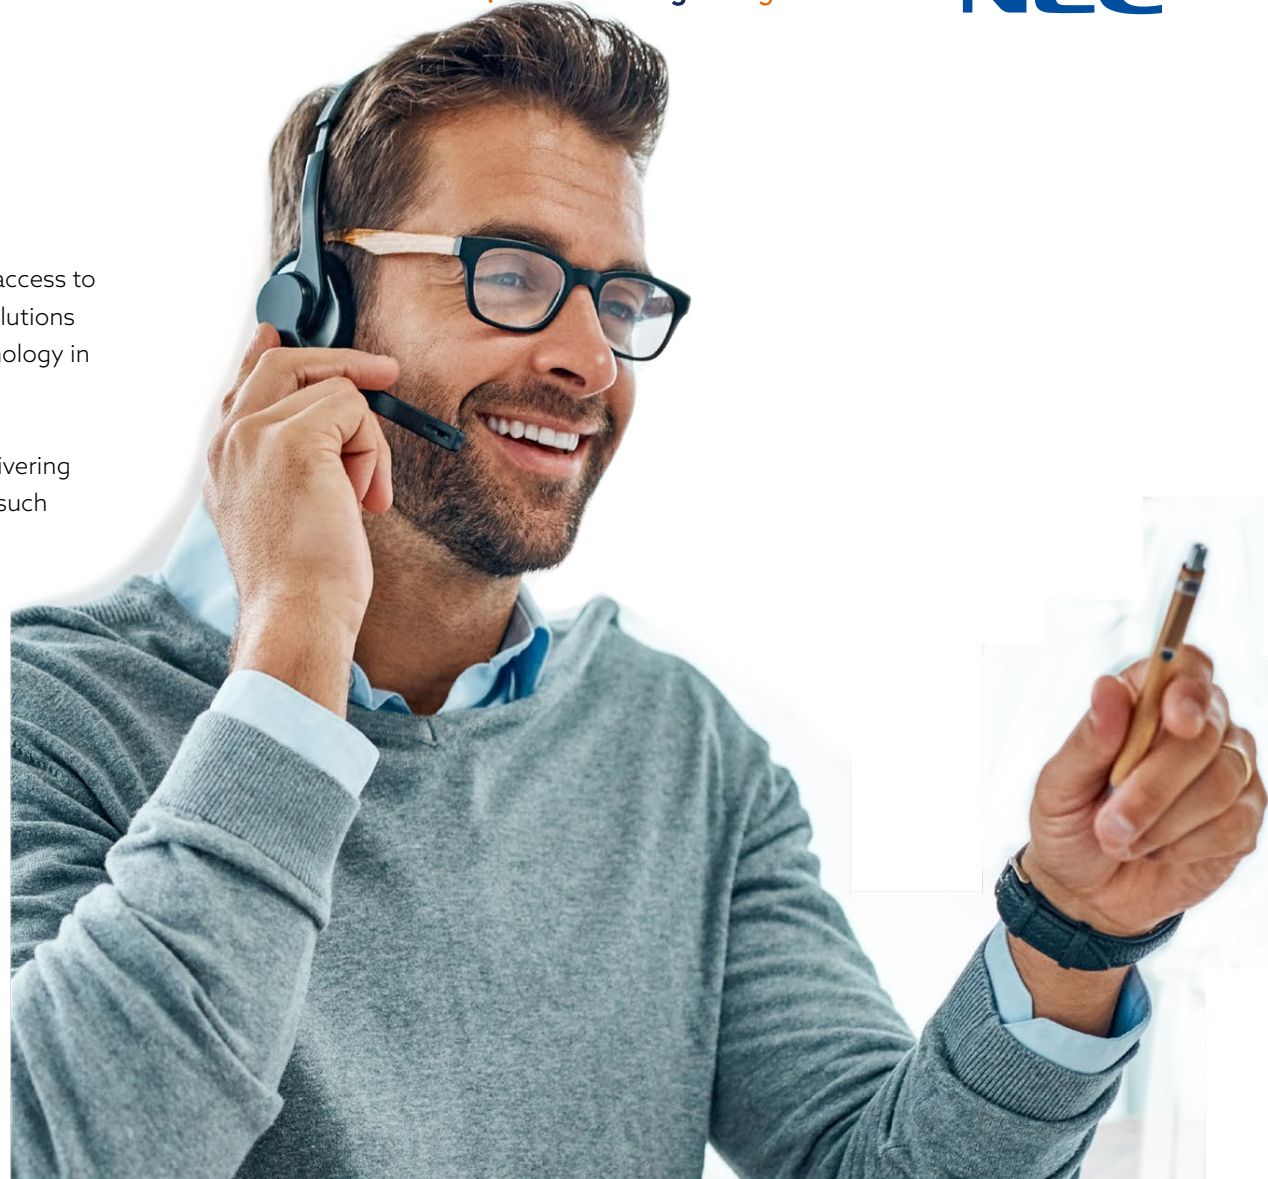

BOOST SERVICE STANDARDS

OPTIMIZE PERFORMANCE AND RESPONSIVENESS

First impressions count, so it is crucial that attendants/operators have access to the most advanced communications tools. The Attendant/Operator solutions available on the SV9500 can provide organizations with the latest technology in call processing capabilities and productivity enhancing applications.

It promotes optimal call management for businesses of all types by delivering the tools necessary to manage heavy call volume. Repetitive activities such as answering and transferring phone calls are instantly streamlined.

- > Optimal call management through a customizable, intuitive user interfaces
- > Presence-enabled directory that integrates with corporate directory data
- > Skills-based directory search to quickly find the person most suitable to assist the caller
- > On screen call control with flexible routing
- > Access to presence-enabled directory with click to call, e-mail, short message service and instant message
- > Optional threat recording, 911 alerts, on-call schedules, message taking and procedure management

COMMUNICATIONS TECHNOLOGIES CATERING TO YOUR INDUSTRY NEEDS... **NOT THE OTHER WAY AROUND**

NEC has a rich history providing communications technology solutions tailored for Hospitality, Healthcare, Education, Government, Finance, Manufacturing, and Transportation based organizations. If you're looking for a communications solution that meets your industry's individual needs, we're the people to talk to.

HEALTHCARE FACILITIES & CLINICS

Every healthcare facility administrator wants to streamline clinical workflows and enable better patient care. The SV9500 lets healthcare facilities and clinics meet the challenges of information sharing head on. From managing the care of the patients or residents, to ensuring that physicians, nurses, and staff can be reached from one phone extension no matter their location.

The SV9500 is a unique solution that reduces the administrative and process-driven strains on your IT system, so your staff can get back to what they do best: caring for patients /residents and providing exceptional care.

IN YOUR HOTEL

A hospitality environment presents the ultimate challenge for customer service employees and the SV9500 caters to these needs perfectly. With the demand for a mobile, connected workforce growing in the hospitality industry, efficient communications are critical to maintaining high-quality guest services.

SV9500 users get access to robust hospitality centric offerings which optimizes hotel operations and improves efficiency. Your staff will be able to be productive regardless of location— resulting in increased responsiveness to guest needs.

IN EDUCATION

Connected learning helps to deliver broader and more intuitive access to pertinent information and resources through direct and increased availability. The SV9500's unified communications and collaboration solutions help make the learning experience simpler and more personal.

By bringing together the tools and technologies that promote highly adaptive accessibility, the SV9500 makes connecting easier, exchanging information more seamless and a collaborative environment that can strengthen an educational institution's reputation. It also helps institutions improve productivity and creates an environment where efficiency and responsiveness ensure an exceptional student experience.

FOR THE GOVERNMENT

City and state governments are simplifying the deployment, operations, and interoperability of their communications solutions. The SV9500 platform allows governments to streamline communications and ultimately provide more connected end-user experiences from any location across multiple devices.

The SV9500 also improves enterprise telephony with advanced communications features all while running in your own secure, safe environment.

SIMPLE CALL MANAGEMENT

MONITOR. MEASURE. MANAGE.

Advancements in technology today has given rise to many innovative multimedia applications and services that have significantly increased user productivity. However, this increase in feature and service capabilities is of little value without proper administration and management. NEC's SV9500 offers secure, centralized administration and expense management, making your communications system a more productive and cost-effective asset.

SINGLE POINT OF ADMINISTRATION

POWERFUL INTUITIVE TOOLS FOR SIMPLIFIED MANAGEMENT

The SV9500's web-based management solution provides powerful, wizards-based tools and templates to make it easy to do everyday tasks quickly and efficiently. Its secure, centralized administration enhances productivity and reliability.

- > Powerful toolset, easy-to-use with intuitive interface
- > Extensive online help system
- > Template-based programming
- > LDAP integration, auto-provisioning and audit history
- > Reliable fault management
- > Advanced security through extensive controls
- > Emergency Location Management

GREATER INSIGHT

CONTROL EXPENSES AND MONITOR USAGE

Manage enterprise communications costs, boost team visibility and maximize staff resources by staying on top of costs associated with your telecom network.

- > Feature-rich call accounting system which delivers complete visibility into telecom usage
- > Analyzes real device usage, online inventory and additional equipment and services
- > Simple and intuitive, requiring no technical expertise
- > Extensive integrated reporting system

SAFETY FIRST

QUICK RESPONSE SOLUTIONS

When an emergency happens, knowing the source and severity of the situation is equally as important as the ability to quickly and accurately alert, and keep on-site and emergency personnel informed. The SV9500 offers solutions to help coordinate an emergency response when the situation demands it whether the incident is isolated or widespread.

GET THE WORD OUT DURING EMERGENCIES

AUDIO CONFERENCING, COLLABORATION AND NOTIFICATION

A secure and comprehensive collaboration solution that enables real-time sharing and the exchange of information between colleagues and customers.

- > Dial-out (Firebar) Conferencing allows the calling of a predetermined group of people and upon off-hook place them into an audio conference
- > Mass Notification delivery options of voice, email, and SMS or a combination of all three
- > Send out emergency alerts, organization information, reminders, special event notices, etc.
- > Better collaboration among colleagues especially among organizations with a geographically dispersed workforce

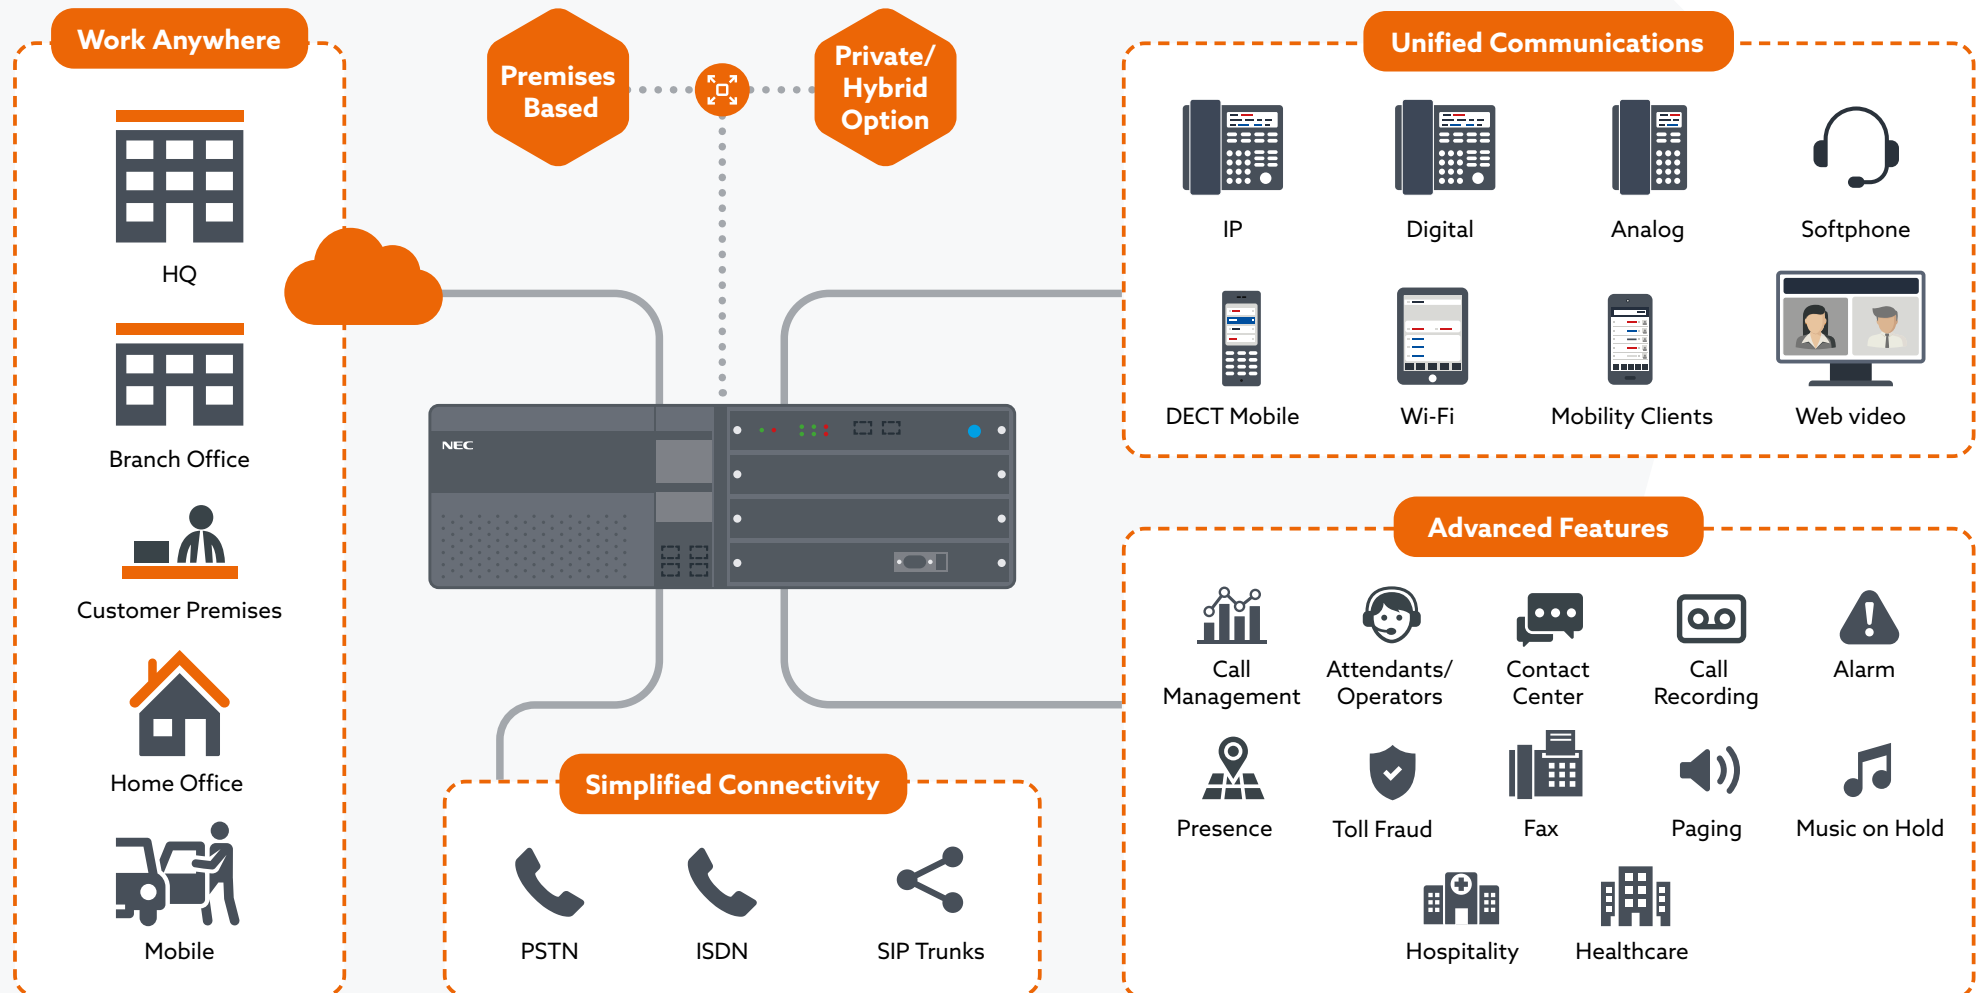

QUICKLY NOTIFY FIRST RESPONDERS

LOCATES POSITION OF 911 CALLERS

This solution automatically passes the location of the dialer to the nearest assigned public safety answering point while notifying assigned emergency responders that an emergency call has been made and its exact location.

- > Real-time monitoring of 911 calls
- > Sends alerts to key personnel of emergency situations by text message or e-mail
- > Push notifications to select groups in the event of a verified emergency or just a general announcement
- > E911 compliance
